Bandung, Indonesia

Personal Profile

Hello! I'm Ryan Rizaldy, an IT student at Universitas Teknologi Bandung and Passionate about creating innovative and user-friendly mobile applications, I'm seeking opportunities to grow as a mobile developer. With skills in Kotlin, Android development, and API integration, I'm excited to contribute to impactful projects.

Currently pursuing my degree in Information Technology, I am actively engaged in programming. I embrace each opportunity to learn and grow in these areas.
